

Get Your W-2 Two Weeks Early!

Don't waste time at the mailbox waiting for your W-2 form! The IRS has approved the delivery of your original W-2 online... but you must give us your consent in order to take advantage of this service. By registering for this option, you'll get access to your W-2 nearly two weeks ahead of the traditional U.S. mail delivery!

Advantage Technical Resourcing has partnered with TALX, a company that provides secure access to electronic W-2's through its w2eXpress entity, to offer this service to you.

How do you sign up to receive your W-2 online?

Simply go to the www.w2express.com and follow the instructions that the website provides, using Advantage Technical Resourcing's login (12312). Immediately after you complete the consent/registration process, you will receive a confirmation email from ClientService@w2eXpress.com. If you change any personal information in the future, an email will be received from pimconfirmation@noreply.talx.com.

When will your W-2 be available?

Your original W-2 will be posted on a secure website in January 2009, about two weeks earlier than you would normally receive it in your mailbox. You will receive an email notification when it is available, along with instructions for retrieval. You will also receive a confirmation email if you make any changes to your contact information. Electronically furnished W-2s may be downloaded throughout the balance of the tax year.

You may withdraw your consent at any time.

Note: With this option, you will not receive a paper copy of your W-2 in the mail.

Any questions?

If you have any questions about this program, please send an email to myw2@advantageresourcing.com.
